This price-list cancels all previous wholesale lists and quotations.

Altho we dug many more #1 bulbs in the fall of 1952 than in the fall of 1951, the large number of early orders from our regular customers has almost completely exhausted our supply of #1. We still have a fairly good supply of #2 in most varieties, but these will move out rapidly, and we advise prompt orders.

POMMERT GLAD GARDENS

"Since 1922, we've been growing, glads for you."

PACIFIC,

WASHINGTON
